April Meeting

—John and Betty Keller

reetings:

We had a small group in March at the library to finish sewing our car record keeping books but we had a good time. Thank you to Betty Keller for helping Daisy complete the books and also to Craig for providing a movie for the guys to watch! It was a Jay Leno film with him showing all his different cars and other toys. I would recommend it to anyone. We had pizza, vegetables, and Girl Scout cookies and enjoyed each other's company. We have four books we will bring to the April meeting for those who ordered them and we have a few others if you want to purchase one for \$6.00. Let Daisy know if you want one saved for you.

Betty and John Keller are graciously hosting the April meeting. Details are in right column.

We still need people to host spring and summer meetings. Also we need input on whether we could schedule a Friday afternoon meeting. We have a couple of places that are very interesting but are not open on the weekend. I would like your feedback. Please let me know if you can host a meeting and tour in the coming months. Remember to hold October 24-26 for our Ohio Region Meet. We need your help in all areas with donations for goody baskets, Chinese auction, etc. The entire club needs to participate. I think we will have an outstanding tour!

See verso about the Spring Ohio Region Tour hosted by Commodore Perry. Several of our members are attending.

Hope to see the snowbirds back for April.

We will meet at 12:45 at the Olympic Dreams Parking lot in Liberty, 4403 Loganway, to tour to Youngstown State University Ward Beecher Planetarium.

The show is at 2:00 and admission is free. We want to be there early to be seated together. There is parking on the street and there are a few handicapped parking spaces between Jones Hall and Ward Beecher.

If you can't meet us in Liberty, meet us at the Planetarium located at 100 Lincoln Ave., Youngstown, OH. The planetarium has just recently reopened after a fire and is very spacious.

The show is *One World, One Sky*, and you will learn about the North Star and the moon in different places on the earth. It's just fun and you can learn a lot.

We will go to eat afterwards. Please call or text John at 330-727-6871.

Dean
